

# BOWIE SENIORS COMPUTER CLUB

## MEETING MINUTES FOR AUGUST 6, 2015

President Carl Bulger opened the meeting at 12:35 pm. The guest speaker was:

Steve Deming  
Senior Partner Technology Strategist  
Email: [sdeming@microsoft.com](mailto:sdeming@microsoft.com)

August 6 was Mr. Deming's 15<sup>th</sup> anniversary with Microsoft!

Mr. Deming gave the BSCC a very informative presentation about Microsoft's plans for the future and how Windows 10 fits into the implementation of those plans. (NOTE: There were no hand-outs or Powerpoint slides)

Mr. Deming began his presentation with a warning about scammers that identify themselves as being "Windows" personnel. He noted that Microsoft never calls people via telephone and never sends attachments to emails.

Mr. Deming explained that Microsoft's Windows 10 is intended to bring computers, tablets, smartphones, X-Boxes and other devices, even such things as home appliances, all under a single software world. Windows 10 will be able to be readily recompiled to serve each type of device. This will facilitate commercial software developer's ability to develop new applications that will operate on all the devices.

Mr. Deming discussed all the new features of Windows 10 (e.g., Halo-ness, multiple desktops, continuum, the Edge browser, Cortana, Hello, and camera 3D support).

Mr. Deming advised and answered questions on Windows 10 installation and activation issues.

Prepared by Bill Long  
Secretary, Bowie Seniors Computer Club
