

Varieties of Linux

- Distribution

- Ubuntu
- Linux Mint
- Red Hat (Fedora)
- Suse
- ChaletOS

- Desktop (GUI)

- Unity (Ubuntu)
- Cinnamon (Mint)
- GNOME (Fedora)
- KDE (Suse)
- Xfce (ChaletOS, Xubuntu)

The Linux Desktop (GUI)

- With the exception of Unity, any desktop can be used with any distribution. (Unity can be used only with Ubuntu).
- Users can install multiple desktops and select the one preferred.

ChaletOS
