

# Install Android Apps on Your PC

BlueStacks Android Emulator

# BlueStacks Android Emulator

- Free of charge
- Good review on Youtube from TroyPoint
- Download emulator from [www.BlueStacks.com](http://www.BlueStacks.com)

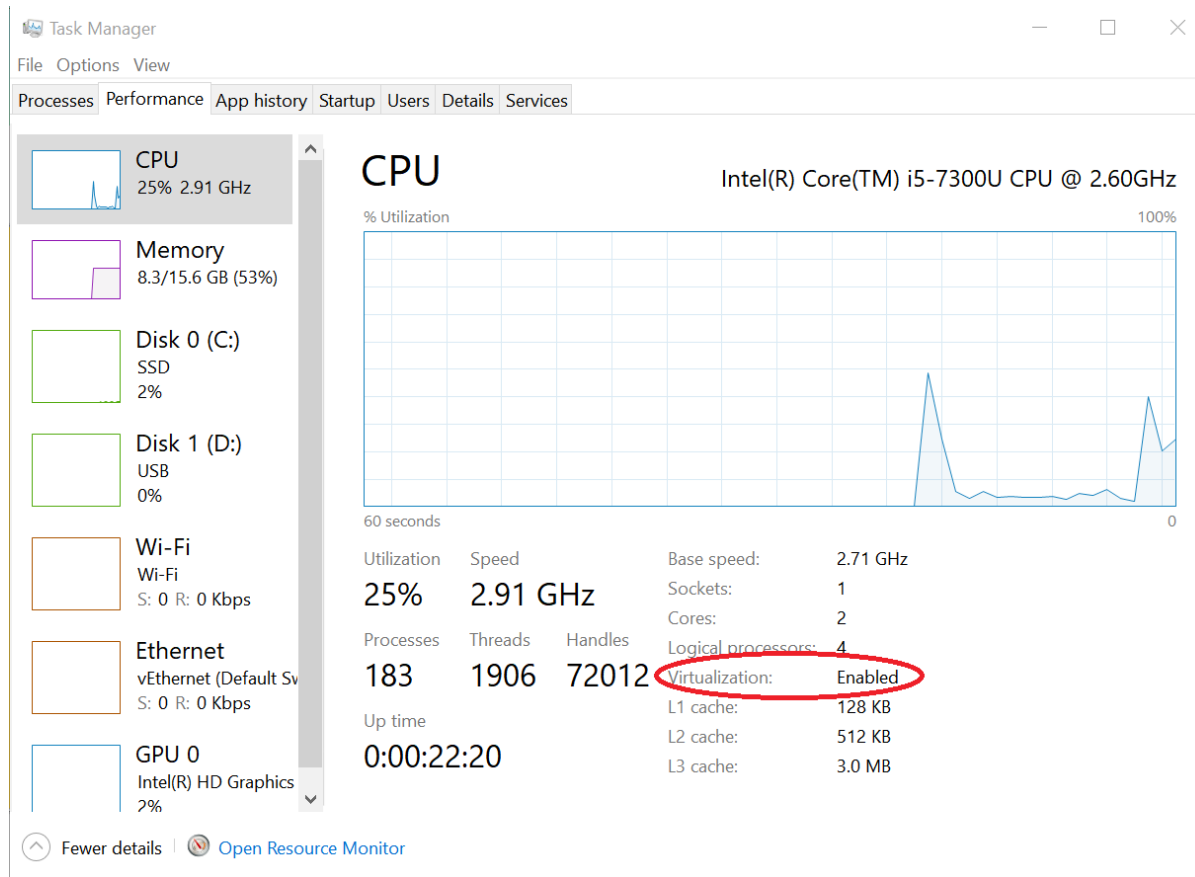

# Requires Hypervisor

- Check to see if Hyper-V is installed
  - on CPU
  - in Windows 10

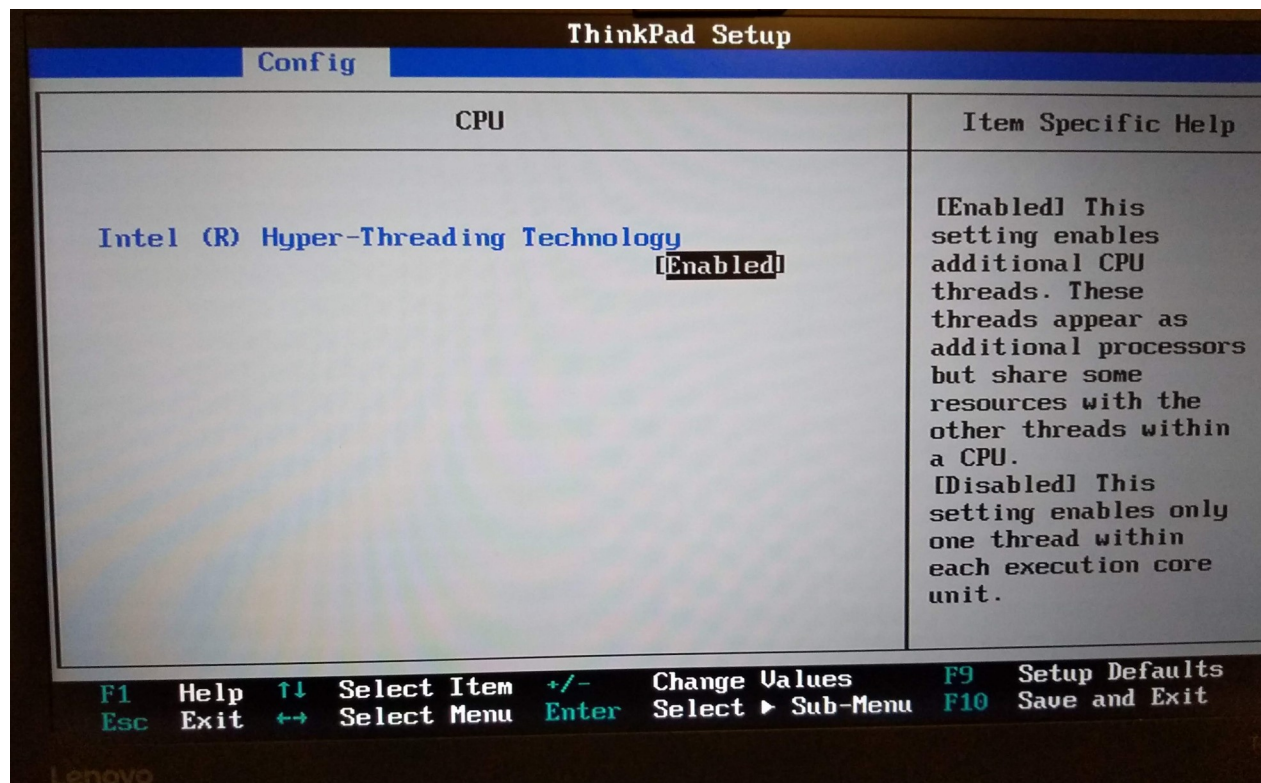

# Hypervisor

- Task Manager - > Performance → CPU → Virtualization
- If not enabled, do the following:
  - enable in BIOS (system setup)
  - activate Hyper-V in Windows 10

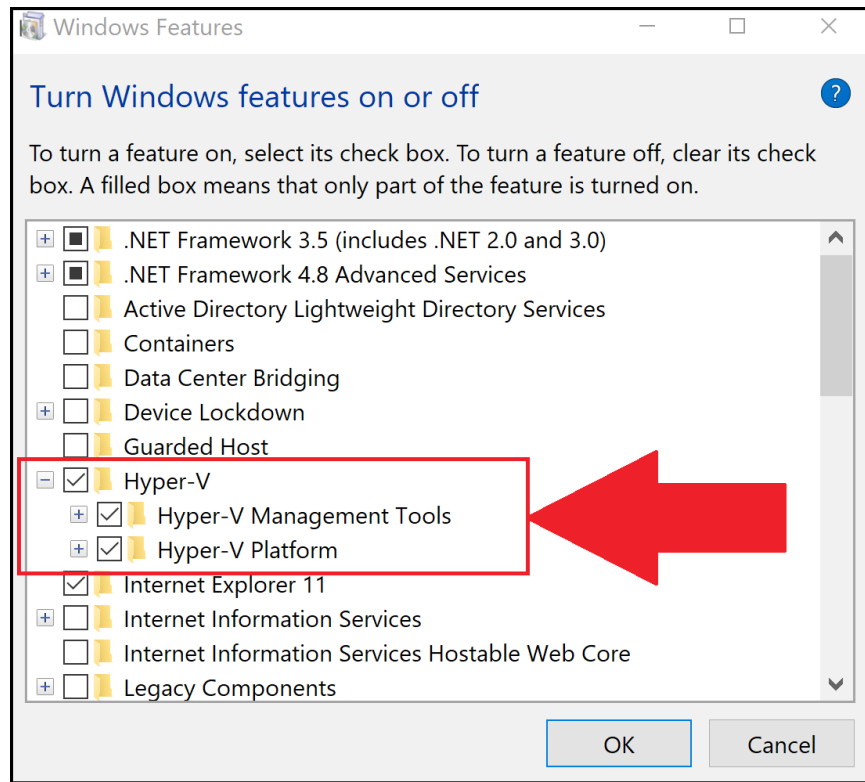

# Check for Virtualization

# Enabling Hypervisor in BIOS

# Activating Hyper-V in Windows 10

# In Case of Emergency...don't break!

- Go to Windows command prompt
- Open command prompt as administrator
- Enter the following (copy & paste):
- `dism.exe /online /enable-feature  
/featurename:VirtualMachinePlatform /all`
- Reboot
