

# Bowie Seniors Computer Club

Meeting Minutes for May 4, 2017

Carl Bulger opened the meeting at 12:30. Guest speaker Neil Bloomberg gave a three-part presentation on: (1) operating system fundamentals, (2) a question & answer period and (3) a bonus presentation. Neil is a 1980 Electrical Engineering graduate of Carnegie Mellon and an expert in computer technology specializing in chip and motherboard design. His slides on operating system fundamentals are available from our BSCC website (filename: OSFundamentals.pptx).

The question and answer session addressed the following topics:

- Quantum Computing
- Cubit
- Raspberry Pie project boards
- Cloud computing

The Bonus Presentaation focused on disk drive design and operation, and memory.

Future meetings:

- June 1, Steve Deming of Microsoft
- June 15 Open Meeting
- July 6, RRR of Bowie Toyota

Bill Long  
Secretary
