Announcements:
- The next meeting of June 4 will have a presentation by Brad Barthum regarding the systems management of computers at Bowie State.
- Dave Hackenberg will provide an announcement for the Center's June newsletter.

Presentations:
- Dennis Evans presented information on GIS (Geographic information systems). GIS is a framework for gathering, managing, and analyzing data. Rooted in the science of geography, GIS integrates many types of data. It analyzes spatial location and organizes layers of information into visualizations using maps and 3D scenes. The presentation and links are available on the BSCC website.

- Bob Blum presented a YouTube video entitled "10 Free Software Applications That Are Actually Great." He also commented about a link to printer cartridges from LDproducts.com
