Bowie Seniors Computer Club

Meeting Minutes for July 21,2016

The July 21, 2016 meeting was held again at the Kenhill Center.
Carl Bulger presided.

No outside speaker scheduled… open forum.

Discussion included:

Update on the new Air Conditioning system for the Senior Center: Dave Hackenberg noted that the work on the Senior Center AC system is on schedule and, unofficially, we may be able to be back in by August 13.

Dave also said there will be a meeting of the Computer Education Program staff next Thursday, July 28, at 1:00 p.m. in conference room A at Kenhill Center.

Bob Kahler reported that he has a problem burning audio CD's on his new Lenovo H50-5013 desktop using Windows 10. Dave Hackenberg stated that he has had no such problems while using Windows 10 on the computers in the Senior Center Computer Lab. A recommendation was to try using the VLC player (free download), or come to our Computer Help Lab, which is open every Wednesday from 12:30 – 3:00, currently at City Hall, Room 243 for further assistance.

Ken Godstry recently bought a new laptop and asked about the best way to transfer data & apps from his old computer to the new one.

Bob Blum and Dan Lee both had used laptop computers to offer to anyone who might be interested.

Eric Hein reported that during the last two weeks of August he will be preparing the classroom computers for classes starting on September 6. He will need help as the work is extensive so any club members willing to volunteer their services would be greatly appreciated. Eric also stated that the goal is to only maintain Windows 10 as that is the only operating system being used for classes.

Upcoming Meetings:

August 4 - TBD
August 18 - TBD
