Bowie Seniors Computer Club
Minutes of Sept 15, 2016 Meeting

The meeting was opened by President Carl Bulger at 12:37. Carl displayed a strange device that had been found by Dale Grant. The device was determined to be a Lotus cigarette lighter for electronic cigarettes.

We had a guest speaker, Denise Haworth, Acting Director of the City of Bowie IT Department. Her presentation was about the temporary move to Kenhill Center that was done due to the senior center air conditioning system failure when computers and phones were moved to Kenhill Center. Network engineer "Keith" provided an explanation of the WiFi network which is to be expanded into one big system. It was noted that Bowie has purchased a Virtualization System to be provided at Kenhill. Ms. Haworth also discussed the Bowie Police body camera equipment and the new Bowie website. Club members noted that the new Bowie website has problems. These problems were brought to the attention of Ms. Haworth. Planning is underway to replace Comcast with FIOS.

Carl Bulger provided an update on his family's activities.

There was a group discussion on how to change one's IP address.

There was a discussion on the need and means to acquire a BSCC laptop computer.

Dick Henthorn is looking for experience advice on use of the Audacity application.

Bill Long, Secretary
Bowie Seniors Computer Club

Denise Haworth
