Bowie Seniors Computer Club

Meeting Minutes

Date: April 4, 2024

Location: Bowie Senior Center, Computer Classroom

Attendance:
The were 21 attendees.

Announcements:
Dave Hackenberg requested that members consider giving presentations in the meetings based on their knowledge of technical issues, applications, problems, and etc. Several attendees also suggested that small group forums could be formed to discuss common interests. No action was taken on this suggestion.

Presentations:
- Bob Blum gave a presentation on how to resolve the persistent error message many Windows 10 users are experiencing when they try to perform the periodic Windows update. It's error no. 0x80070643 when installing update KB5034441. Bob's presentation is posted on the Club website.

- Bill Macri provided an overview and demonstration of the accessibility features of Windows that conform with the Americans with Disabilities Act (ADA). His presentation started with a video that was produced in 1991 by AT&T that showed predictions of future technologies that would use voice and facial recognition to communicate over the internet. His point was that these technologies now exist as predicted.

   His presentation and a link to the video is posted on the Club website.

Future Meeting:
- The next meeting will be at the Center on Thursday, May 2.
