BOWIE SENIORS COMPUTER CLUB
Meeting Minutes for June 16, 2016

The June 16, 2016 meeting was held at the Kenhill Center. The location change was due to the failure of Bowie Senior Center's air conditioning system.

Through the efforts of Program Chairman Dan Lee, we had a guest speaker. The guest speaker was Ms. Susi T. Hajeski. Ms. Hajeski gave a presentation on cyber threats and malware.   Ms. Hajeski is a Senior Computer Scientist for the Baltimore Field Office of the FBI and the Regional Program Coordinator for the Computer Scientists in its Northeast Region. As a regional program coordinator, she works closely with FBI computer scientists to coordinate investigations throughout the country. She is also an instructor for the FBI Academy's new computer scientist employees. She received her bachelor's degree in Computer Science from the University of Illinois.

She noted that there is a means by which victims of identify theft, malware and ransomeware can inform the FBI of complaints. A copy of her handout is attached. She can be contacted at email Susi.Hajeski@ic.fbi.gov

The meeting included an informative, comprehensive question and answer session. This was a very well-attended meeting (43 people).

Bill Long,
Secretary
